

NEW JERSEY CITY UNIVERSITY ENVIRONMENTAL, HEALTH & SAFETY (EHS) SERVICES INFORMATION

"Don't gamble with Safety"

Mission

- ◆ To foster a safe and healthy working environment for the Administration, Staff, Faculty, and students attending New Jersey City University through safe personnel work practices and attention to City, state and Federal Regulatory agencies, to ensure compliance in all areas.
- ◆ The EH&S Department in association with the Public Safety Department will provide and maintain this atmosphere throughout the University through technical support, periodic and relative information and training programs, consulting services, and periodic auditing of health and safety practices & regulatory compliance.

Objective

- ◆ To identify and correct potential hazards to persons or the environment
- ◆ To ensure individual safety and health practices throughout the University through education and training of all concerned
- ◆ To reduce injuries on campus through a proactive approach to identification of unsafe actions / practices or equipment

Responsibility for Safety

- ◆ Under the direction of the President, all Administration, Faculty, staff, and students have a personal responsibility for their own safety @ the University; this is to include Chairs, Directors, and all those directly associated with employees and the student body.
- ◆ Each employee is directly responsible for complying with the applicable health & safety standards and regulations as mandated by regulatory agencies throughout the state.
- ◆ New Jersey City University as an institution is committed to providing a safe and healthy environment throughout the campus, above and beyond the minimum legal requirements, to ensure the overall integrity of the Environmental Health & Safety programs @ the University.
